5 wordpress themes: To customize a theme, edit the sidebar to add a blurb about your blog. This is just as simple as changing some text. To add more to the sidebar, use the Wordpress Widget, to do this just go to your admin dashboard, then Presentation and you will find a tab for Widget. Drag and drop whatever you want to appear on the sidebar. To change and add advertisement to the sidebar, just add and change adsense code, or ad images. That is all to enjoy using the wordpress themes!
