ADDICTION CD with OUTSTANDING musicianship and presentation of mixed styles and genres, predominantly great rock, with emphasis on EXCELLENCE in songwriting. Very real and revealing emotionally in topic and portrayal by the writers and singers. 17 MP3 Songs ROCK: Classic Rock, ROCK: Acoustic Details: PLEASE NOTE: JAMES TAYLOR co-wrote and performed in the songs "Addiction" and "Wine," and the next pressing will reflect the changes. They are great songs, and all credit is due all contributors. ABOUT THE CD: Brilliant and inspired describes this wonderful collection of songs, written by those who know addiction. It's not about "we slipped, we got clean, we're great now," although that is certainly worth celebration, and some songs hope for that; it is more about the REALITY of how addictions influence a life, directly. Some writers handle it with confession, others with an ironic sense of humor; yet each song is gripping and real in story and emotion, making the CD a truly compelling work. Please understand the place from which each song originated, and applaud the work for its openness and the spirit in which it is offered. Thank you for supporting independent art.
