Beebo sings about some events in the normal everyday life of children and their families, inspired by his own children and the things children like. 18 MP3 Songs KIDS/FAMILY: Children's Pop, KIDS/FAMILY: Kid Friendly Details: Roland (BEEBO) Bibeau has been writing and performing songs for children and families for 19 years. This album was inspired by the love of his wife and their two daughters. It is easy for a father of two active children to find song ideas by watching his family grow. Take diaper changing for example, wasn't that a fun thing to do for all you moms and dads????? Well, maybe that's a bad example but even that was fun in its own way. Things like the first drink from a cup, riding a bike, making some noise, eating your vegetables and love in your family. Just some of the things written about in this collection of songs by Beebo, about a bunch of stuff, for you and your family. Hope you enjoy.
