Melodic indie rock pop 10 MP3 Songs POP: Pop, POP: Britpop Details: "Outside looking in" is the second solo album from Bernard Binns. Now based in the U.K Bernard once fronted the famous South African pop sensation "The Helicopters" who played stadiums in the 80's and achieved numerous top 10 hits. This album follows his first solo effort " Physiognomy of the soul" and takes us back into pop territory with a big anthemic, epic and catchy alternative modern rock sound. It may be catchy and sing-a-long but some of the songs take on a dark mood and are emotional and deep while maintaining their pop sensitivity. This album features the Number 1 U.K hit " Cut to the Bone" on Matchbox Radio 24 and the new "epic" single " Gods Land" that touches on Manics, Muse, Coldplay, Placebo and stadium rock territory. " Outside looking in" is in short a classy, sophisticated modern rock album of melodic, powerful, sensitive and dark songs that take you on a journey into the mind of this modern true artist Bernard Binns.
