Frey at his best- poetic and insightful lyrics, simple but beautiful melodies, an eclectic group of songs all delivered in his memorably cool voice, sometimes backed by just his guitar and harmonica, sometimes with a fuller band. 12 MP3 Songs FOLK: Folk-Rock, FOLK: Urban Folk Show all album songs: Like A Train Songs Details: born in north carolina, grew up outside of Cleveland, OH, moved to minneapolis in 1993, here ever since. i'm a sure taker every time for a good melody with a minor chord here and there. not too prolific, but i probably have somewhere around 100 songs over the years. i put a lot of time into lyrics, though once I finish a song i usually don't try to change it much... but, a song, mine or others, changes over time and that's a cool thing to behold..... i've played a lot of different types of places, some great some not so great... i appreciate the process of writing, i love the experience / feeling of playing and singing a song... i like to do covers... i am a diehard supporter of Cleveland sports teams, Browns especially and, for that, i am deserving of your sympathy... thanks for checking out my bit of space here in the virtual world... i'm proud of this record, hope you enjoy it, too... come out to a show if you get the chance... take good care, bob
