

Mp3 Buffalo Creek - Signal To Noise

[DOWNLOAD HERE](#)

Kickass organ-driven American Rock'n'Roll. 13 MP3 Songs ROCK: Americana, COUNTRY: Country
Rock Details: Touring and recording since 2000, Buffalo Creek received their first radio airplay with a single from their self titled six song E.P. which allowed them to tour California, Oregon and Washington which brought them to the attention of Wild Oak Records and Vina Loam Records. Since then, the band has established themselves a continuous touring circuit in Northern California cities, playing regularly in San Francisco, Sacramento, Davis, Lake Tahoe, The North Coast, S.L.O, Humboldt and literally countless suburbs. While touring Northern California and recording their first full length released Oct. 24th 2003, the band established a very loyal fanbase. The largest club in town, La Salles now features a guitar autographed by each member proudly hung on the wall above the bar, and a string of crowded Friday night shows there have promised their permanent place in the town's diverse musical history. Describing their sound only as "down and dirty rock and roll" Buffalo Creek can be associated with the California Soul sound, mixing classic rock and country twang and an alternative edge. Their sound has allowed them to play with artists as diverse as Sawyer Brown, Tim Bluhm and the Mother Hips. It's obvious to anyone who has seen a live show that Rock and Roll is the foundation on which Buffalo Creek is built. The concise songwriting of Bryn Loosley provides the band with a seemingly endless supply of new, original material which has provided the band with a back catalogue of over 100 original songs. February 25th, 2005 brought the newest release from Buffalo Creek "Paint By Numbers", an 8 song CD featuring some of the finest songwriting from Bryn Loosley and Marc Stafford to date. Recorded, mixed, and produced entirely by Buffalo Creek, the record took a year to produce and was made in various locations all up and down the west coast. More information on Buffalo Creek can be found on their website at: buffalocreekmusic.com, which features an active message board with over 50 topics regarding the bands

activities, and a photo archive of shows as well as most up to date info regarding new albums and touring plans.
