

MP3 Echotomb - Lonely Machine

[DOWNLOAD HERE](#)

A sexy dose of adrenergized passages and twisted beats. Fat and thriving and devilishly memorable. 8 MP3 Songs in this album (33:52) ! Related styles: ELECTRONIC: IDM, ELECTRONIC: Breakbeat/Breaks People who are interested in Squarepusher Richard Devine Exile should consider this download. Details: ECHOTOMB's "Lonely Machine" is a throwback to the days of memorable synth lines and solid groove breaks and tight programming. More so, the formula on this album has been re-evaluated to the point of resuscitating the Drill-n-Bass/Jungle/IDM genres all together. Married to imaginative sound design and flawless execution, ECHOTOMB proves that he is much more than your run of the mill beat mangler on this release with his playful melodies and cross genre palette.
