

Mp3 Gum - Seven Feeble Alibis

[DOWNLOAD HERE](#)

A female-fronted intelligent pop band, skillfully deploying lush atmospheric soundscapes, beautiful harmonies and killer hooks. 7 MP3 Songs POP: with Electronic Production, ELECTRONIC: Pop Crossover Details: Scottish band Gum released their debut album 'Low-flying Kites' to excellent reviews in 2003. Featuring a clutch of great tunes and some spooky atmospherics, the album brought the mellifluous vocals of Leigh Myles to a wider audience, with sales in Australia, the US, Japan and New Zealand, as well as in the UK. Their new mini-album 'Seven Feeble Alibis' is now released through Serali Records. Punchier and even more radio-friendly than the debut album, Seven Feeble Alibis occupies a more muscular territory than its predecessor. Imagine Aimee Mann going for the jugular by way of Zero 7 and youre halfway there. There are some beautifully downbeat moments too, framed within the usual dreamy Gum soundscapes. Leighs voice is seductive throughout, but the addition of multi-layered backing vocals lifts the killer choruses to truly dizzying heights. As their reputation grows, Gum will be looking to build upon a rapidly-growing fan base in 2006. As Is this Music? magazine put it: Leigh Myles is a weapon of mass distraction, with a voice that could stop wars shes a star waiting to happen.
