Melodic blend of guitar driven rock with soulfull lyrics and great solos. 8 MP3 Songs ROCK: Jam-band, ROCK: Progressive Rock Details: The Joe Hoffmann Band is a Toledo based jam band. Our band consists of a wide range of different musicians who have come together to form a very talented band. From a progeny lead guitarist and song writer, as well as folk rythem guitarist and song writer...to a former metal bassist, punk drummer, and an exceptional percussionist, we have many of our musical corners covered in JHB. We sound closer to an Allman Brothers Band style of rock and roll with more modern touches, but we still jam out. Our new self titled album was engineered and produced by us using a Digi 001 / Pro Tools system and three years of very hard work. There are eight original songs spanning over 55 minutes, with different songs touching on such genres as bluegrass, regae, and pop. None of which stray too far from the fact that they are still rock. I hope all who buy this disk enjoy it as much as we do.
