Hiatus is the first solo effort from Paradox, but with this release he shows himself to be no rookie on the mic, spitting observational wisdom about the things hes seen and the people hes known like a true old soul. Despite Belizes influence, as heard in the heartfelt storytelling and thought-provoking introspection found throughout, Hiatus remains firmly grounded in the boom bap tradition with its flurry of witty wordplay and braggadocios punch-lines. Not your average rapper, Paradox has something to tell you and plenty vocabulary to do it. Currently residing in Austin, TX, the live music capital of the world, Paradox has already started to make a name for himself as a crowd-pleasing performer. Before completing Hiatus, Paradox was a member of the group 49 Stories, which shared stages with such hip hop favorites as Awol One, Josh Martinez, Mr. Lif, Fakts One, DJ Moves, MC Paul Barman, Grayskul, and Sleep of Oldominion. In 2003, 49 Stories dropped an album entitled Blind Faith to considerable praise from critics and fans alike. In the words of one reviewer from hiphophotspot.com, If one was to define meaning in hip hop music on a universal level, Blind Faith would sum it up... 49 Stories is a highly talented group that easily impresses fans with every word, rhyme, beat, and song.
