

Mp3 Tilbury On Cloves - Tilbury On Cloves

[DOWNLOAD HERE](#)

Tilbury On Cloves can hardly be considered a hot new retro act. Think Eyeless in Gaza and Chameleons UK, but also Sigur Rs, Piano Magic and Metrotone. The distant, mope-y vocals are intact, along with dream-like guitar cascades and '80s-esque hall reverb. 13 MP3 Songs in this album (65:28) ! Related styles: POP: New Wave, ROCK: Shoegaze People who are interested in The Chameleons For Against Piano Magic should consider this download. Details: Having existed since 1994, Tilbury on Cloves never seemed to be a part of the Athens underground, as basically the latter does not even exist. A five- piece at their first steps stormed the gig halls with their often- than-usual appearances. Their first single And the sea will touch the clouds was a participation to the Live Studio compilation and was released in 1996. Various appearances at local-and- throughout- Greece festivals came to strengthen the mucical approach of the band, until the tragic death of their bassist, in November 1999. From then, Tilbury on Cloves appear to be a duo (Chris: vocals, bass, programming/ Vlassis: guitars, electronics, drum machine) with various releases, starting from 2001 with the split 7" Evertry along with Ma Cherie for Painting (Kontakt Series- Pop Art records) and continuing with their contribution to the compilations of various Greek fanzines (Sense:Aggravation, Overdub:Rolling, Flux:Isn't so far). In 2003, Tilbury on Cloves were a support act to the legendary Chameleons and appeared on the first Synthpop Avenue compilation with the song Not Understood. One year later, they released their first self- titled work (although it consisted of recordings from 2000 and 2001) on the danish label BSBTA alongside with the single Innocence. In 2006, Tilbury on Cloves participated in the Audiobook 1: Songs within the borders compilation with the song Everlast and released their second full- length album The blindshow on the Greek indepedent label dead scarlet records. Today, 2008, the group has joined a new member "John", playing drums and some synth sessions...
