

Mp3 Carol Hahn - Into The Light

[DOWNLOAD HERE](#)

Beautifully haunting melodies, sensual and powerful vocals, and driving rhythms define the sound of Carol Hahn's newly released CD, "Into the Light." A Pop/R&B/Dance crossover. 13 MP3 Songs POP: Pop, ELECTRONIC: Dance Details: With songs that not only touch the heart but reach into the depth and essence of love, singer/songwriter, Carol Hahn brings haunting melodies and passionate vocals to her newly released CD, "Into the Light." A consummate performer, Carol has been singing and playing for years with her five piece group. She moves easily from jazz standards and blues, to Top 40, Pop/Rock, and Dance; she can sing commercially for radio, work the club circuit or take charge in a recording studio. Playing and performing from an early age, Carol became interested in writing and recording in the mid 80's when she was signed with a label and released an album and 3, 12" dance records, which charted both nationally in Billboard, and internationally on the U.K. Dance charts. Taking time off to finish her college education, she recently returned to her first love, writing and recording music. Interested in all phases of the recording process not only did she play keyboards, drums/percussion, sing lead and backgrounds vocals on "Into the Light," she also produced and engineered the recording of her CD. Paul Burton of CD Review writes, "Carol Hahn may be the hardest working one-woman band in show biz... The CD kicks off with "Where is the Passion," which establishes the formula for the rest of the CD: passionate and sincere vocals, pumping bass and driving percussion, multi layered keyboards, and heartfelt lyrics. Her arrangements are rich and tasteful... She creates beautiful music for lovers or dancers, partiers and dreamers." Carol sings of love, and passion, and loss. Her music will touch you.
