Acoustic driven contemporary folk with a pop feel 12 MP3 Songs FOLK: Folk Pop, POP: Folk Pop  
Details: Enjoy the smooth vocals and lo-fi feel of this unique first offering by Doug Carman. It's full of acoustic driven songs with a real pop feel about everything from love to sewer explosions to the Trail of Tears. Appreciative of the field recordings made by Alan Lomax years ago, this recording is based on the idea that today, with our access to recording technology, writers and performers are essentially making their own field recordings. In other words, regardless of musical genre, all music is in a sense folk music.
