Alternative Singer/Songwriter. Beck meets Jackson Browne in a Full carnivale' filled with Songsmiths, Vocalists, lyricists, multi-instrumentalists. 15 MP3 Songs ROCK: Americana, POP: California Pop Details: EyeSee Music Presents... Eric Lichter: New York City subway busker. Child prodigy. The california mists rose in the morning and standing on the coastline was this young gifted musician. A ghostlike presence carried him through the American landscape where ravens flew overhead guiding him to the clubs, alleyways, and coffeehouses of the downtown New York City scene. Where he was discovered singing a soulful Prince-like rendition of a Southern California Beach Boys tune. This Cd is representative of a swell of activity. It is amazing.
