Details: The Perverted Evolution Of Pollution Repeatedly betrayed, beaten, burned, and destroyed - the elegant Queen Of Whores dumps another soul among the slime and rotted flesh in a misfits graveyard to be forgotten. Among the vast lifeless waist of humanity, something stirs in the putrid decay, exhaling with icy breath. As the frigid blood streams beneath scorched flesh to a blackened heart, a transformation festers within something left for dead. Emerging through a damp, warm fog; something pale, cold, and emotionless is forced to the surface. Apathy with a tortured past, its purpose becomes crystal clear: to inflict pain and suffering upon the female subspecies with a rapists mentality. The thrill seeker only exists to indulge in the perverted, bruising pleasures of the flesh and meat. EROTICIDE is the purified malevolence that is the perverted evolution of pollution that taints the pure and impure alike. It's just a baneful existence consumed by pornography and destruction that is fueled by the hatred of the female venom.
