Williams 16-year-old tender age of 16, although I was a grade "A" student became involved with some older associates and got caught up in committing a serious offense (aiding and abetting in a murder).My involvement driver, only having second hand

knowledge of what had taken place inside on that night in 1992. These same associates some of who later tried to lay blame on the 16-year-old kid (J. Williams) who was later sentenced to 30 years in prison. Ever since the beginning of my sentence I have nurtured my singing ability along with finishing my education. Enhancing my song writing ability and teaching myself the art of music. (Self taught Musician) all with the encouragement and support of DOC, staff (I.E.) Warden Delouch ect. To not only show and feel remorse for my part in this crime I am a changed man for 10 years now. J.W. has envisioned and held a dream. A dream of showing the world, my family, and all others involved, that the kid that committed that horrible mistake is not the man they are dealing with now. J.W. himself said like Doctor Martin Luther King " I have a dream." I myself have a dream too. I have a dream and vision that I can help make this world a better place. Through the inspiration and gift of music that God blessed me with. I can say I am very happy that time has given me mercy that I may give myself to someone. Even in the midst of my storm I must stay focused and determined to endure. Rhythm and Soul Artist "J. Williams" Comments: I give all praises to God in the name of Jesus Christ because it's been though doing 10 years straight. In my retrogression I fight everyday to get another chance in life. If I die know that I'm a fighter and I died fighting for my freedom.I believe my life is not in vain. Though I was a child still getting Christmas at age 16 when my case occurred. Now many years later I feel God allowed by pain for a reason. I feel that education is the important tools to know the difference and I'm getting all I can these days.Everyday I spend incarcerated I will learn and obtain ethical things to take my dream to the next level. I guess I'll start now by beating the odds. To my fans I love you all and I pray that you continue to see the positive force I give to you and the realness I sing about in my music. God Bless You "J. Williams" Unconditional Artist
