What ever happened to real hip hop?? nothing. its right here. 13 MP3 Songs HIP HOP/RAP: Hip Hop, ELECTRONIC: Trance Details: K-tha-O (Kash Tha Ovadose) a product of the streets genetically as well as demographically. Growing up quickly because his enviornment called for nothing less, Kash learned early that nothing will come to anyone in this world unless they go get it. This young man is the formula that hip hop has been trying to create since it started(future releases promise to include, Rock and roll, trance, techno, and R&B). His commitment to hip-hop and his determination not to allow anything to get in the way of his success is expressed through his rhymes. K-the-O is well versed in ever changing flows, ridiculous punch lines and word associations that are equipped with lifes experiences from those that are able to express themselves and those who are not. Lyrically he should have been born with a warning label, like narcotics -legal and otherwise- The content within may be habit forming. His name is Kash given that \$\$\$ is how one makes change. Tha Ovadose is linked to the reaction of listeners, they all say that this kid is to much. With nothing standing in his was except time itself, this young entrupenuer says that he is just getting started. STAY TUNED...
