They have a stunning musical charisma that bursts forth from their ability to improvise as musicians. They can just play. Whether its fingers on a table, a 5-octave marimba, or combinations of skin, metal, and wood, one hears melody, rhythm, and counterpoint being phrased with character and passion. Sonarchy Radio Doug Haire, KEXP 90.3 Seattle "A finely tuned original percussion duo" New York Times "...smart and engaging playing...a compelling performance." The Guardian "***** (five stars)...a mixture of metallic lustre and organic sensuality that is quite magical. The cumulative effect is overwhelming, which is meant as the highest praise." Muskegon Chronicle "A veritable aural feast..(the group) played so well together that the music was very much alive and seemed to be infused with their inner selves....This is a group to watch."
