

Mp3 U-rush (yuri Mamchur) - Memories

[DOWNLOAD HERE](#)

Distinctive melodies wrapped in Techno, Smooth Jazz, and Classic Ballad instrumentations. 12 MP3 Songs ELECTRONIC: Techno, JAZZ: Smooth Jazz Details: Yuri Mamchur began his music studies at the age of five in Moscow, Russia. At the age of thirteen he completed his music studies and got involved with DJ-ing and setting up the equipment at his secondary school. Moscow City School 1205 has always had a very strong emphasis on performing arts and music. It had lots of very expensive and advanced equipment. Yuris desire and hard work put him in charge of all this equipment at the age of fourteen. He began learning the basics of sound engineering, while completely ignoring the previous music education. At some point Yuri was asked to do a cover of some famous song, and he realized that he still had the 5-year-old-boy gift of playing by ear. He was fourteen when he was first introduced to the amazing creatures named synthesizers. It hooked him on music forever, and almost killed his ability to read sheet music. The songs on the Memories were composed and recorded in Yuris Moscow home-studio between 1998 and 2001. The songs arrangements are strongly influenced by such musicians as Robert Miles, ATB, Jim Brickman and 3rd Force. Yuri shares the same name with his father and grandfather. He has always been called Yurasha around the house, so it would be easier to identify the smallest of the Yuris. When it was time to name him as an artist for the Techno project, it kind of came naturally " U-Rush. An exchange program brought Yuri to a summer camp in Gig Harbor, Washington in 2000. Yuri has traveled extensively between Moscow and the United States. He fell in love with Washington State and the Pacific Northwest, moved to America in 2003, and has been keeping the music dream alive. Yuri is 24; he lives in Seattle, and works as a Foreign Policy Consultant. Please read more about Yuri and listen to the unpublished music on the Yuri Producitons website yuriproductions.com.
