TONY BLAIR, A JOURNEY In 1997, Tony Blair won the biggest Labour victory in history to sweep the party to power and end eighteen years of Conservative government. He has been one of the most dynamic leaders of modern times; few British prime ministers have shaped the nation's course as profoundly as Blair during his ten years in power, and his achievements and his legacy will be debated for years to come. Now his memoirs reveal in intimate detail this unique political and personal journey, providing an insight into the man, the politician and the statesman, and charting successes, controversies and disappointments with an extraordinary candour. A Journey will prove essential and compulsive reading for anyone who wants to understand the complexities of our global world. As an account of the nature and uses of power, it will also have a readership that extends well beyond politics, to all those who want to understand the challenges of leadership today. This eBook is a PDF file compatible with most reading devices, or read on your PC.
