Now YOU can use our ridiculously easy video tool to make your affiliate commissions explode through the roof...and here's the most ingenious part-- You DON'T even have to make your own videos!

Thursday, November 5, 2009 Brought to you by: YOUR NAME HERE Dear Internet Entrepreneur, This is NOT just another web page telling you that "video is hot". I know that you ALREADY know that, so I wont waste your time trying to convince you of something you are well aware of... However, what I have to show you about video is very different than what youve been told and it will change how you think about marketing with video from this point on. Its not your fault, but youve been leaving commissions on the table unknowingly and I have to break some news to you thats a little shocking... Affiliate Marketers Have Been Kept Out-of-the-Loop And Prevented From Prospering With Online Video! You heard me correctly... Up to this point, video has been for the makers of the videos who control them and show them to put money into their own pockets -- only. I'm sure you've seen videos embedded on sales pages, or linked from them. Those videos were created by the product vendors to promote and/or demonstrate their products, BUT as an affiliate you could not use those videos as a marketing tool BECAUSE there was no way to make sales commissions directly from them. That one important element was left out of the video puzzle for some reason. There was no concrete way for you to refer a sale by simply showing a video - UNTIL NOW. In the marketing world, a lot of videos are still being used as "testimonials or talking head presentations" up to this point... But that's not nearly the full potential of using online video - not even close. In fact, our market tests prove that using targeted video pages helps focus the viewer 100 on the message and the content. Your Video Powered Commissions Are Waiting! Are you ready to stake your claim in the lucrative growing market of online video? But wait a minute... Maybe you already know how time-consuming it is to create your own videos, and the product vendors who create videos only show them for their own use (not for their affiliates!). Up to now you were correct in thinking just that, and your only choices were to invest a lot of time and money in learning to run expensive video tools... OR just plain lose out on this monumental opportunity all together... But with Affiliate Video Brander, huge video powered commissions await you... and you DON'T even have to create your own videos or mess with

difficult Flash files or HTML programs, BECAUSE all you have to do is click a few buttons and our software does the rest. Now It's So Easy to Start Making Those FAT Video Commissions... Unlike other people's attempts to incorporate videos into marketing, there's NO distractions to the viewer when you use our video strategy. There are no unwanted outside links or running text, which tend to distract the visitor, and leech away from your sales. Instead, our targeted pages provide only the video, active links of your choice, and an optional automatic redirect that leads directly to the sales letter or order form. Our results have shown that THIS strategy is extremely effective! So, if you're going to send visitors to a video page, then why not use a super focused video page with a built-in call to action. A page that not only "Tells" but also "Pre-Sells", leading viewers exactly to where you want them to go. In other words, instead of merely sending visitors to a "presentation", you're sending them to a sales-driving, commission earning machine! With Affiliate Video Brander, affiliate marketing meets video dead-on and puts this new powerful method directly into YOUR hands. Now YOU can use online video for REAL profit! With the ocean of online videos being created everyday, you have access to an endless supply of video content that's ready to help you make fat commissions when people buy after viewing your branded video pages! When I understood this principal I went and got permission to test some videos using our newly developed Affiliate Video Brander. Soon my eyes were popping wide open watching sales pour in, simply by BRANDING the product videos with my own affiliate link! All I had to do was SHOW the video, and when the viewers went to the site to buy the product, the sale was MINE! I didnt even create the videos, but was paid a handsome commission just by letting people watch them. Many bought the products exhibited in the video and the sale went through MY AFFILITE LINK which was branded along with the video. I Created a True Win-Win Situation Where Extra Money Was Pouring Into My Bank Account And The Vendors Were Happy to Pay Me More Commissions! The full benefit of using video was now in my control which allowed me to make more money, and the vendors were thrilled that I was able to use their videos to drive more sales of their products. Order now and start making more sales... After all, what product vendor wouldn't want their affiliates making more sales? Essentially the vendors are getting more bang for their buck by allowing their affiliates to leverage the work that has already been done creating product videos. Since it's such a win-win, it's EASY to get permission to use a vendor's video, which means you'll have a huge pool of products and videos to choose from. Want Proof? Case Study #1 Eric discovered this strategy back in March of 2006, when he become an affiliate of a program called Secret

Article Converter. He found that the demonstration video on the sales page was a powerful piece of evidence, and he knew that if people watched it they'd be sold on it. The problem was that the video was just one little link on the sales page, and visitors had to go through a squeeze page just to get to the sales page. So Eric set up his own page simply with the video and his affiliate link. Instead of sending referrals directly to his affiliate link (in which case they might not even see the sales page, let alone the video), he sent them to his video page to make it 100 certain that they would see the video (and keep in mind that Eric did NOT make the video himself... it was already made by the vendor). He became one of their top affiliates, and has received a commission check from Secret Article Converter every month since then. Commissions: \$7,429.75 and counting

Case Study #2 When Eric promoted a program called CB Niche Builder, he once again found that the demonstration video was an excellent sales tool. Eric made a page containing the product vendor's video (no work for Eric!), and sent viewers of the video to his affiliate link. This strategy helped propel him to a nice commission of over \$2000.00. Commissions: \$2,347.00

Case Study #3 Michael has a lot of good case studies; here is a cool study in which Michael used a vendor's video to promote Competition Dominator... It all started with a short email he received from one of his list members who wrote: " Help Michael! The Link for the Competition Dominator video does not play." What was happening is something common that happens when vendors show a video on their webpage; the video gets over-loaded when too many site visitors are trying to play it. Come to think of it, if more affiliates would show videos on their own sites it would probably eliminate most of the "launch day server crashes" we've seen in the past year. Michael knew people really wanted to see this video but they couldn't and he was losing commissions fast unless he did something for them. So, as an affiliate for the product he contacted the vendor, and got permission to use the video. In fact, he used the first version of Affiliate Video Brander (the test model) to see if it would save the day and he was able to download the video and brand it with his own affiliate link, and that was the big test to see if the link would work and sales would convert by showing a video at his site. It paid off, and it continues to be a killer strategy every time he uses use it. Commissions: \$4,890.87

We have many more case studies, and we've made much more commissions than we've mentioned on this page, but we're NOT here to brag about our income. Besides, I think you get the point. This simple system really works, and it can work for you too. It's So Easy A Child Could Use It... Hmmm, You Got Any Kids? Maybe It's About Time You Put Them To Work!

Using our cutting-edge new software is simple as 1...2...3! Step 1 - Type in the URL of the video you wish

to brand, and choose the folder where you want to save the files. The program will generate the files in an easy format so you can instantly upload and start profiting from the branded video. Step 2 - Enter your affiliate info so you can earn commissions as a result of showing the video! We've also given you lots of customizable features so you can make it how you want it. You can add your own text to the page, choose the color, positioning, etc. You can even enter custom META-tag info for search engine optimization. Step 3 - Upload the files to your website, and BAM! You're done. STOP Stressing Yourself Out Trying To Write Killer Sales Copy And Wasting Your Time Doing Boring Product Reviews. Heck, You Can Stop Writing Altogether If You Want To... The Affiliate Video Brander gives you the ability to profit with literally a few clicks of the mouse. You use someone else's videos, let the tool do the work for you, and then profit the easy way. Now you DON'T have to write any content when promoting an affiliate product--no more pre-sell writing--just send someone to a video that has already been created, let the user watch it, and cookie them silently before they buy the product! Videos allow you to pre-sell the viewer so much more strongly. People habitually click off of sales letters, but they rarely click away from videos this means drastically higher conversions and earnings! It's HARD to WRITE an effective pre-sell page. In order to pre-sell using your words you have to strike the perfect balance between content and motivation... in other words, you have to be a hard-core copywriter. But the Affiliate Video Brander allows ANYONE to pre-sell a product, build instant rapport with the visitor, and ultimately get the sale. Think of it as a super-charged product review page, but there's no need to write a single word of content and there's no HTML required because our software generates the page for you! Sounds easy doesn't it? Click here to order now... You Can Also Use It To Turn Your Own Videos Into Cash Cows! As I've already covered, this software is designed for you to profit from online videos without you having to create your own. But if you have made your own videos, this works great for them too! All too often I've seen internet marketers post "show & tell" style screen-capture videos where they review a product, or demonstrate their own product, and they fail to properly monetize their video by sending their viewers to the order page of the product they're demonstrating. The Affiliate Video Brander will enable you to breathe new life into those videos by making sure you get the affiliate credit you deserve. And if you're using videos to promote your OWN products... no problem! You can use our program to make sure your viewers get sent to your order form or wherever you want them to go after viewing your video. The Affiliate Video Brander Is The Perfect Tool For Our New "Vlog & Zing" Method! I Coined This Term (So Don't Forget You Heard It Here First). If

You Thought Blog & Ping Was Hot, Just Wait 'Till You See Vlog & ZING! First of all, what is "vlog" and what is "zing"? A Vlog is an online video log. It's the same thing as a BLOG, except it's comprised mainly of VIDEOS instead of just text. Zing is a term that I use to describe using voice-to-text technology in conjunction with your online media. In other words, there is a certain new technology which can automatically translate audio and video files into TEXT (it's like a robot that "listens" to video and transcribes the words), which is then indexed in a search engine. The company currently doing this is called EveryZing (thus the term "zing"). However, mark my words: it will not be long before the major search engines adopt this technology. I predict that Google will either buy EveryZing or be forced to spend millions developing their own competing technology. EveryZing is currently spidering the web and indexing the text of all the audio and video files they can find. I have posted videos recently and they have appeared in EveryZing's search engine within 24 hours. And yes I've already started getting FREE TRAFFIC from it. Do You Like Getting Free Web Traffic? Regardless of which major search engine emerges first with this new technology, THIS is one of the primary ways media is going to be indexed. It makes perfect sense really. People go to search engines to find what they're looking for. As everything moves toward video, more users will prefer to view content in video format. And this "zing" technology will allow people to find videos that are truly relevant to what they are looking for. This is a huge opportunity for anyone who posts videos on their websites. For example, if you post videos related to a certain product, it will become increasingly more likely that some people will find your video in their search results, and choose to view it INSTEAD of text-based pages. As you can guess, this presents a big possibility for affiliate marketers to capitalize on this new boom. By establishing your site as an authoritative resource for videos related to your selected topic(s), you could potentially gain millions of future visitors who will be looking for relevant media. In addition to the affiliate marketing strategies presented by this new technology, it will also become a BIG factor in contextual advertising programs. You think AdSense is dead? Think again! It is almost certain that AdSense and many other contextual advertising programs will begin to use this new technology to serve ads that are relevant to the content of the video being shown on a page. So once again, content is king. Those who are the first to capitalize on this new media by creating authoritative sites containing videos will be the ones to cash in big when these ad programs start serving targeted ads to video pages. Let me put it like this... If you had the opportunity to go back in time to the great American land rush of the late 1800's, would you go back and grab the

maximum allowable amount of land that you could get for free? Of course you would, and I view this similarly. This new wave of the internet is literally on the VERGE of happening, and you can STAKE YOUR CLAIM now before the big rush. Click here to order now and stake your claim... By using the Affiliate Video Brander, you can easily add new videos to your website, blog or vlog (and remember... you don't even need to create your own videos). And by establishing an authoritative vlog, you have the chance to outrank even the vendors of the products you're promoting. After all, think about it... web users of this new era will be searching for VIDEOS, not for sales pages! Unlike the here-today-gone-tomorrow hyped up marketing strategies that you've seen in the past, we've created something designed to make money for you today AND well into the future. We've predicted what will become of the internet marketing world, and we want YOU to ride the wave with us and stay one step ahead of the curve! STOP Spending \$100 On Adwords and Making \$40 Back! STOP Sending Your PPC Traffic to the WRONG Pages... START Beating the Click Flippers At Their Own Game. A big reason why so many wannabe affiliate marketers are losing their shirt in the PPC game is that they are sending all those clicks to poor-converting sales pages. They think, well maybe its my keywords, or maybe I just need to send another 100 clicks, so they whip out their credit card yet again and burn another paycheck on Adwords. Maybe they're even sending the traffic to a highly ranked ClickBank product. What they don't realize is that the reason many of those products are so successful is because there are a handful of super affiliates out there who are properly PRE-selling the product, and creating the bulk of the sales. As I've already mentioned, pre-selling is a delicate art that in my opinion requires a top-notch copywriter to be effective. And since most people aren't top copywriters, they simply aren't good at this form of marketing. So how can you pre-sell your PPC traffic to get the maximum conversions for the product you're promoting? Use a video! And of course with the Affiliate Video Brander you don't even have to make the video yourself. The Secret of PPC and VIDEO... Pay-Per-Click is a hot thriving market, and now with Affiliate Video Brander turned loose on the affiliate population... anyone NOT branding videos may find it even harder to compete! PPC marketers have been waiting for a super easy way to show videos to their targeted audience - and now they have it! GET ON BOARD NOW - NOT LATER! Click here to order now and avoid being left in the dust... You see... showing videos to PPC audiences is a new experience that's already being done successfully by a small handful of elite marketers (like us!) but now with Affiliate Video Brander... it's going to explode! Just think about it for a second... With video, your PPC visitors will not

have to read anything to decipher what you want to show them... They just sit back and watch with much less search friction, WHILE your branded affiliate links work hard 24-7 converting videos into commissions for you. If you can deliver a better experience with video, then you can get paid handsomely for it-- and using branded videos with PPC can do just that! By the way...if you DO wish to make your own videos from time-to-time, you can easily do it using the screen-capture video software that we're including for you as a fast-action bonus today. It works great for making your own product reviews. By sending your PPC traffic to a video review page, it is not uncommon to make \$40-\$100 a pop for each person who views your video and orders the product. Chris "X", who makes over \$1 Million per year, even recommends this exact tactic in his best-selling Day Job Killer ebook, but up until now, no-one had the tools to do it properly! Video is a far more intimate medium than mere words on a page, which means higher trust, more authority, and better conversions. In short, you stop wasting money on PPC, and start using PPC to beat the pants off your competitors, and yes...make money on autopilot while you sleep! SO WHAT ARE YOU WAITING FOR??? Click here to order now... This Simple-To-Use Piece Of Software Can Put You On the Fast-Track to Super Affiliate Success!
