Related styles: ELECTRONIC: Experimental, POP: with Electronic Production People who are interested in Tori Amos Anthony should consider this download. Details: A composerer-singer from singapore. The aim of producing this album is to create a new label in the singapore market. This album is a piece of work that tell you the other side of the world where sadness and loneliness huant you and it's deep down beneath your sub-conscious mind. Real-life stories also inspire the composer to write this songs. For instance: "yes or no" relects Question being asked to a smoker friend of why he smokes... "please wake up" is a song written from a perspective where The composer saw a friend of his had a friend which had a mishap and become unconscious for several days. So this song is written hoping he will wake up soon. "body and soul" tells you about the deep inside the mind of the composer itself. Everyday is just a cycle and you just a part of this society. you work, you eat and you sleep. As time goes by everything seem nothing to us already. Your soul slowly lost to the everyday systematical life being a part of this cold society. Pls feel free to review the songs. I know its a foriegn language but hope the tune and the arrangement make you feel the shades of grey in this album.
