ARE YOU READY TO TRANCE N ROLL !?!?!?

Two years ago Analog Pussy decided they are going to create something new, BUT without compromising the True Psychedelic Trance sound. It was a challenging and stimulating voyage. In 1999 Analog Pussy released their first album "Psycho Bitch From Hell", which was in Full-on Melodic Goa sound, one of the last dinosaurs of its kind. Later on Analog Pussy made a hard turn into Progressive Psy Trance with Techno and House influences. Analog Pussy's strong bound to Hadshot Records lead to its 2nd album "Underground" in 2001 and "Vinyl Trax" in 2002, both released on their own label, AP Records. After experiencing the two worlds of Psychedelic Trance, Full-on Goa and Progressive, Jiga and Jinno just had to bring something new, there was no other way. Back then, they didn't know what will be the result, they felt it has to fuse different elements from different cultures and artistic layers. After a lot of research and experimentation, the result is here! TRANCE 'N ROLL. GET READY FOR SEX, TRANCE AND ROCK N ROLL!!! Serial Number; AP115
