"Vocals as clear and clean as a mountain stream, reminiscent of Alison Krauss or Dolly Parton, with a little of her Scottish roots showing through" 8 MP3 Songs COUNTRY: Traditional Country, FOLK: Modern Folk Details: "I can remember as if it were yesterday, the first time I ever sang harmony. I was about 10 on a family camping trip in Economy, Nova Scotia. My step-mother started singing "You Are My Sunshine" and it just came out of my mouth. I was mesmerized! For the next 10 years I sang harmony to every song I heard....drove my family nuts! I have always loved to sing and over the past 25 years or so, have been singing in Country/Bluegrass, Celtic, and Rock bands. I just released my first CD "Sweet Thing" at Christmastime of last year, and have spent the summer playing here and there throughout Nova Scotia, while writing a bunch of new songs for the next project."
