

Mp3 Brad Jones - Simplicity

I use the term "Zen Folk" to describe my sound. It's very mellow instrumental guitar, and is great for chilling out after a tough day at work, or as background for yoga or meditation. 16 MP3 Songs FOLK: Folk Blues, EASY LISTENING: Background Music Details: Musically, I'm a late bloomer. I started playing guitar seriously in my mid 40s (I'm now 48), taking lessons and practicing. Started out learning blues riffs, and then shifted to classical and fingerstyle blues/Celtic/folk under the patient tutelage of Fran Capitanelli. Began composing a couple of years ago. Most of the songs I write are simple, fingerstyle, open-tuned, with a Celtic and blues feel. I'll throw in some slide every now and then for grins. I'm not blessed with a singing voice, or a knack for writing lyrics, so my work is all instrumental.
