Whiny emo songs with great sense of humor, killer rock hooks, lyrics about girlies, fire, and great 80's movies. 21 MP3 Songs ROCK: Emo, ROCK: Punk Details: Rock n' Roll, Fire, and Girlies. That pretty much sums up the Choose Your Own Adventure experience. CYOA began in the spring of 2001 and has become a ROCK AND ROLL MACHINE on a direct warpath headed for yo mamma. Their songs have been called "passionate...with interesting vocal style" but that's pussy make. CYOA is about ROCK N' ROLL, that's right, chicks and fire...got that. They write whiny emo songs about girls, sticking with your bro's, and 80's movies (Like we didn't all want to be Michael J. Fox in "Back to the Future II" when he got to ride a hoverboard!) CYOA (Steve Penta and Jared Piccone) spawned from ex-members of Since the Fall and D'arey October...but that was all pussy make. Come out to a CYOA show and see what all the ruckus is about. The live band features a super group line-up with members of The Afterglows and The I in Team.... with surprise guests coming and going. If you've ever been dumped, had your ears flicked in school, ejaculated prematurely, or set things on fire for no reason, then this is the band for you. Check out the website for all the happenings in the CYOA world, and be sure to check out their live shows up and down the east coast of the USA. Buy the new CD release on drp records NOW! Rokk lives...and it starts with a "C" and ends with "venture"!
