Rock-fusion, instrumental guitar cd 10 MP3 Songs JAZZ: Jazz Fusion, ROCK: Instrumental Rock Details: Harry Kapeliaris Return MusicMirror Records has recently released the second CD by guitarist/composer Harry Kapeliaris titled Return featuring ten instrumental compositions. In this work, the guitarist employs his skill on the instrument in the service of expression and composition rather than focusing on guitar chops alone. The melodies may be classified as fusion but also dwell in the wider ethnic region of the Mediterranean. Recent years have seen the emergence of a fusion movement in the region of Greece, a movement which has also undoubtedly been fueled by the arrival of major artists in the field of fusion for concerts and seminars. At the same time, Greek musicians make their strong presence in the domestic and international arena showcasing their works and musicianship. The record was completed with the collaboration of the following musicians: Harry Boutselakis bass, Chris Basios keyboards, Nikos Saleas clarinet, Theodore Goumas drums, Bob Tsilivigos saxophone, and guest guitarists Thanasis Giokas, Theodore Ziras and Derryl Gabel from the US. A diverse collection of instrumentals from a talented composer. Release May 2006
