Just listen to the clips. 11 MP3 Songs ROCK: Modern Rock, FOLK: Power-folk Details: Las Vegas Body Snatchers Take Les Claypool and Keith Moon and smash them up into one acoustic guitar player: add drums, bass, and songs that grab you and take you somewhere, and you've got the Las Vegas Body Snatchers. Highlights include "Double Negative" (imagine Julian Cope singing with Tool), the fist-pumping instrumental "Sorry I Punched You In The Face #3", and the delicate and mind-boggling "Temptation", a one-handed guitar instrumental. The songs are raw and energetic. The Guitar playing is very unconventional: an extremely percussive and aggressive style where the strings are struck with both the right and left hand, like a piano or even a drum (just listen to the opening of "Make Ecstatic"-- BTW, there are no guitar overdubs on the record).
