Ethno-electronic ambient with a classical touch 7 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Virtual Orchestra Details: "Beyond horizon" is an instrumental album in electronic style, where Grassows "spiritual ambient" drones and Gleisbergs classical teached orchestra-sounds are melted together in a perfect melange of surprising and tenseful ethno-electronic. Nostalgia was formed in 2000 by Rdiger Gleisberg and Mathias Grassow. The long friendship between these two well-known solo-musicians found its creative expression in the first album " Arcana publicata vilescunt ", released on US Label " RELEASE " in 2002. Third full member of Nostalgia is Carsten Agthe, a percussionist and Didge player. Nostalgia stands for modern electronic-sounds, melted together with natural percussion and orchestra-elements. Main idea is a sound between Ambient and Gothic, but the cosmos of this band is much larger.
