Cosmic American music from the prairies of Canada. 10 MP3 Songs COUNTRY: Alt-Country, ROCK: Americana Details: The Western States add the Cosmic American element to Winnipeg Manitobas thriving roots music scene. The bands sound follows a path through latter-day America, traveling from Gram Parsons to Bob Dylans Basement tapes within one song. Initially formed in 2002, original members Sean Buchanan (vocals and guitar), Nicole Marion (guitar, vocals), Ashley Roch (Piano, Organ, Vocals) Jared Plummer (drums) and Keli Martin (bass) started developing their sound by letting the songs be built from the ground up. The Western States have quickly been embraced by Winnipeg's strong roots, Americana and indie scenes opening for the likes of the Weakerthans, Fiest, Nathan, The D Rangers, The Perpetrators, Julie Doiron, Christine Fellows, and Radiogram. Like most roots bands in Winnipeg, The Western States call The High and Lonesome club home, and can be seen taking the stage on a regular basis. In 2007, the band released their debut self-titled album on Dollartone Records. The album features guest musicians including Chris Carmichael (Romi Mayes), Bill Western (Nathan), The D Rangers, and Producer/Musician Gurf Morlix (Lucinda Williams). Jerrod Falk was introduced as the new bass guitar player, and Joanna Miller joined as the new drummer. The album generated an enthusiastic response across Canada, enabling the Western States to reach #1 on the Earshot Folk/Roots chart. The band was also voted Best New Band in the 2007 Uptown Magazine Readers Poll. In the same poll, the debut album was voted #3 in the Best Album category.
