Attention! If You're one of the many people who have realized that Blogs are far more powerful marketing weapons compared to traditional websites, what you are going to read will completely revolutionized the way you approach Blog Marketing Who Else Would Like a Surefire Blueprint using the Power of Web 2.0 to Propell your Blog to the Top of the Blogosphere Driving an Avalanche of Laser Targetted Traffic to your Blog Dear Entrepreneur, You might have invested considerable time and money in your blog or website and you are now looking on generating a good income from it. You have posted some high quality unique articles and you are so convinced that you would get a good traffic return. But despite all your efforts, you can see only a modest traffic trickling to your website. You listen to the gurus, get on board with Adwords, banner advertising and traffic exchange only to realise that your efforts are in vain. Welcome to reality! Generating traffic to a website is much harder to what you thought! It is commonly said that blogs are traffic magnets. They can easily be search engine optimized for leeching on organic traffic. But now more than ever it is really a big challenge to get your blog in the limelight. This is because you have to compete with 100 million blogs out there in the blogosphere. You may have bought almost every internet marketing

product coming on the market and used all those marketing and traffic software you have come across...yet you are not able to generate a generous income. Are you wondering WHY? Well, the Key is getting traffic to your site. The rest is easy. There are so many examples of poor quality products that generate so many sales simply because they have a massive traffic. The reverse is true, there is so many high quality products that never make a breakthrough in the market simply because of poor traffic. So, in summary what you need is Traffic Traffic Traffic ...you do not even need to have your own product. You can simply promote affiliate products if you know how to generate traffic. Traditionnally there are 3 problems with generating traffic : 1. Knowledge and experience - if you doing SEO, you really need to know your stuffs. Else you may have your site banned from Search Engines. You will also need to stay up to date. SEO is rapidly evolving. What is working today, may not work tomorrow. 2.Time Consuming: Gathering backlinks for SEO takes a lot of time. You will need to be constantly work on improving your website link popularity. 3. Cost a lot of money - SEO, PPC and Banner advertising are effective but you need a large amount of investment on a regular basis. Web 2.0 is The One Solution for FREE Traffic. It is much more Powerful than any other means of traffic Generation With the phenomenal rise in the popularity of Web 2.0 websites like youtube,facebook, hi5 and myspace, internet entrepreneur has found a new way of generating traffic. Web2.0 have become so popular that Search engines were quick to pay massive amount for those sites. Google bought youtube -(124 million users) for 1.65 billion dollars, Newscorp bought myspace for 580 Million and facebook is currentlt valued at 2.3 Billion dollar. While so many internet marketers are trying to generate traffic from MySpace and Facebook, a select group of entrepreneurs are reaping out the benefits from BlogCatalog, THE Social Network for Bloggers! Why is BlogCatalog So Powerful ? BlogCatalog growth is quite phenomenal. According to Alexa, BlogCatalog traffic has superseded Yahoos own MyBlogLog.
