How To Create Follow Up Emails For Any Product or Service in Minutes By Simply Copying and Pasting Information Into A One-Page Template! ...Finally There's a Way to Write Follow Up Emails For Any Product You Sell Generating Back-End Sales on Auto-Pilot! Dear Fellow Marketer, I'm going to get right to the point. If you can copy information from a sales letter and paste that information into a template then you stand to make substantial auto-pilot cash with the tool you are about to find out about. The product is called Follow-Up Email Creator Pro. Here's How It Works... Step 1. You read the questions and fill in the blanks with your answers. In some cases all you are doing is copying and pasting from your product's sales letter. Step 2. You push the Create button. Step 3. You view your newly created 21 follow-up sales messages. Step 4. You copy and paste your follow-up sales messages to Notepad and make any adjustments. You could add additional language or just keep the messages the way they are. Step 5. You load the messages into your autoresponder system. That's it. The total time to create 21 follow-up email sales messages is between 15-30 minutes depending on how fast you can answer the questions.
