Eclectic progressive compositional fusion 10 MP3 Songs JAZZ: Jazz Fusion, ELECTRONIC:

Experimental Details: AB3 is Arthur Barrow's third solo album. This all new CD of original compositions from 1999 by Frank Zappa's former Clonemeister, bass, keyboard, and guitar player has a delightfully wide range of musical styles. Arthur plays most of the instruments himself, but fellow Zappa alumni Bruce Fowler (trombone) and Tommy Mars (keyboards) are also heard. This CD is a must have for all hard core Zappa collectors or any listener who appreciates adventurous music.
