Rocking pop melodies that make you want to put the top down and blast the stereo. 11 MP3 Songs POP: British Pop, POP: Power Pop Details: bee is a new pop band with a set of sinfully catchy and rocking melodies. It is the brainchild of faceman Nicholas Markos, who has built a significant reputation with solo records and performances, as well as his work with English chanteuse Cath Carroll (Factory, Teenbeat), Last Gentlemen (Zoo), and other artists. If you think Nirvana was the greatest band of all time, you're in the wrong place. Markos's live-performance credits include opening sets for Bob Dylan, Curve, Melissa Etheridge, The The, the Violent Femmes, Todd Rundgren, Roger McGuinn, Squeeze, 10,000 Maniacs, and many others. Greg Kot of the Chicago Tribune calls him "one of Chicago's Most Promising Performers," and Jim DeRogatis of the Chicago Sun-Times said of his most recent work, "A slave to no genre, the ridiculously prolific Nicholas Markos brings to mind a hipper underground version of David Gray. He could be dangerous." bee features a powerful cast of musicians, including drummer Todd Sucherman (Brian Wilson, Styx), bassist Eddie Carlson (Poi Dog Pondering), backing vocalist Kathy Jo Warden, Mike Zelenko (Material Issue), Howie Kantoff (Poster Children), Mark Schwarz (David Singer the Sweet Science), and Matthew Payne (Hot Glue Gun). Not beholden to trends or formats, bee capitalizes on strong, hooky melodies and concentrated pop-rock arrangements. The songwriting and sound have been compared to the most respected work of Oasis, Pete Townshend, and David Gray. Fresh, sing-along melodies like the driving hook of "Birdy Deluxe Superstar" and the inspiring "Oh Yeah Come On Take It Easy Baby It's Alright" are irresistible hits that make you want to put the top down and turn up the radio on a summer day.
