This album will tickle your fancy. Its innovative hip-hop at it's finest. A musical menu of lyrical styles and beats with a dash of ill behavior. 16 MP3 Songs HIP HOP/RAP: Rap, HIP HOP/RAP: Alternative Hip Hop
Details: It has been almost two years since BooSen released his successful debut album "13 Years". In that time he has grown and come to an experimental point in his music. Enter "Another Link In The Chain". A solid collection of music and personalities that gives the listener an inside look at exactly what BooSen can do. Using some of Portland's untapped talent such as hit makers DJ Kriz, bubbles, and the lyrical genius know only as KingerG, BooSen relies on the wizardry of hip hop/electronic artist, and fellow label mate, Absence for this project. The project works! Bringing a fresh sound to a recycling hip hop scene. BooSen also introduces you to his own style of beat making on "Another Link..." Once again another hit from TransparenT Productions and another step higher up the ladder for Mr. Rumrada himself, BooSen.
