Pop with live band and easy listening love songs 11 MP3 Songs POP: with Live-band Production, EASY LISTENING: Love Songs Details: That's the way it is gets rid of your wintery blues. It was recorded in the "Attik" in Regensburg in 1992 with some of the finest musicians from Germany and England and produced and arranged by Willy Duncan famous band member from the Spider Murphy Gang and myself not to mention Wolfgang Gtz who also had his hand in this project. In 1993 it was released by BSC Munich and Brambus Switzerland with the promotion on the single "Change Of Heart" which received extensive radio airplay in Germany and Switzerland not to mention the rest of good old Europe and other parts of the world. The rest of the songs I wrote with a personal feeling at the time especially "Thats The Way It Is" a song depicting loneliness, war, greed, and God and was also made into a short film by Alex Knig. The other songs will take you how you feel ups and downs of Love and Life and the picture the black and white one in the inner sleeve is how I feel a as an Artist in our Big Brother society !!! This album is one to listen too and think about your situation!! Even though its from an older time it just stands out with all the other music of today Timeless Enjoy it and please I always welcome your reviews so don't be shy to write or contact me loveyas Dave
