Next, the beautiful ballad: 'Little Lady' is the undisputed favorite of Jon's female following, with it's soft acoustic sound augmented by Jon's soulful pleading for the lady to become his, has sold many albums in and of itself. Then, the superfunk song: 'Procrastinator' tells the woman to stop wasting time and give up that love like ya supposed to! Then watch out for the 'Prima Donna'a girl that looks so good but is 'never satisfied no matter what you do.' So many have fallen for Prima Donnas and Jon and the music tell the story! You'll love it over and over again. Then you come across the rock sound (for you rock guitar enthusiasts) with the danceable beat of 'Three Feet Away'. The title track: 'My Special One' is as sweet as vintage wine for those of you that have a 'special someone' (and who doesn't?) This song is complete with cello and harp Jon has sung this for couples at many functions and the words will apply to anyone truly in love. Purchase the album and give it to the one YOU love. Let Jon sing it for you. The song: 'I Was Far Away' is a song in the style of Smokey Robinson or as Jon says: "Smokey would highly

approve of this one." There is another concluding ballad which is a song of lost love due to be renewed, in the heart wrenching: 'Go Where You Must Go.' If you've ever lost a love (and who hasn't) this is the song for you. See if you can relate! Finally, 'Prima Donna pt. 2' will put you in the groove instrumental style reminding you of the sixties...right on. So become a part of this artist's following.
