Bare bones, original, acoustic' roots blues with a hint of country 10 MP3 Songs COUNTRY: Country Blues, BLUES: Acoustic Blues Details: This CD was inspired by a night of debauchery with my buddies Shawn and Sarah. After a night of renovating one of my many apartments, we found ourselves quasi high from paint fumes and sitting in a bar, the liquor flowed, the night progressed and we found ourselves at a party that went on till dawn. I was playing and singing when Shawn said "Why don't you re-do some of your old blues tunes acoustically? Hell, I'd buy that." Thus the disc in your hand. I love this cd. It is raw, has imperfections, the playing by Mike Burns and Wade Mosher is superlative and I think it is as close to being me as anything I have ever done before. Enjoy, may all of your blues be musical and remember, without you, there is no me. Kim Doolittle xoxox
