Country, Rock, and Pop that'll have you dancing and laughing at the same time. Cowtown Playboy-hillbillies on a mission. Dinner Conversation-a pop tune about a cranky couple out for dinner. 8 MP3 Songs EASY LISTENING: Lounge, POP: Quirky Details: Once upon a time in Blue Springs, Missouri , a joyous, but backward, community east of Cowtown there lived a brave and noble teller of tales, Mike West. Having gained tremendous wisdom and insight into the workings of the heart-through his many years of research. (Referred to by some as carousing !) He decided to do the good work and share what he had learned through song, so that others could find love and happiness, or something just as good. He realized that if he could fling his words across the land-joy would be widespread-and he wouldn't have to get a real job. And so it began, an era of enlightenment and wonder, and really really cold beer. Now, in the comfort of your castle-or your carriage(if it has a really cool sound system) sit back and ponder the the deeper meanings in these seemingly innocent,innocuous,ignominious, enigmatic tunes. Every once in a while you may want to stand and-kind of pull at your tights-so you don't get a wedgie. Or you could just wear jeans while you listen.
