Eclectic, acoustic folk music, breezy in texture and thought 9 MP3 Songs FOLK: like Joni, FOLK: Gentle
Details: As lead singer/guitarist for two of Austin's more interesting bands (Grass, Groovin Ground) many Austin music fans know Mo Pair as an animated, chapeau-topped rocker. His solo work is from a whole 'nuther place. Native American chants and songs, recounts of magical journeys and of people and loves lost are ingredients in a Mo Pair stew. He is often accompanied by other sympathetic musicians and singers that add a symphonic texture to his music. His 1999 release, Friday Nights at Danny's, is the best of his earliest work, and was originally created as a record of said work. Learn more by getting lost in his website at mopair.com.
