The first L.P. from the No Service Project is full of fast-paced, up-beat and undeniably catchy ska-punk anthems. This perfect blend of skater-punk, ska and reggae with a touch of hip hop will hook you within the first few moments. 15 MP3 Songs WORLD: Reggae, ROCK: Punk Details: Hailing from the very prominent East Coast ska-punk scene, The No Service Project comes from a depressing area known only to the public as Butthole, Pennsylvania. Since the birth of the band in late 2001, the NSP have mutated into a potent blend of catchy melodies, head-bobbing grooves and streams of choruses that you simply cannot get out of your head. There is no better way to put it.
