The sound that made Michael Jackson have a bad skin day, This Music is a Cross between Kanye West and OJ Simpson having a slumber party with prego Britney Spears, and Whitney Houston...Did I get your attention? 14 MP3 Songs HIP HOP/RAP: Hip Hop, ELECTRONIC: Pop Crossover Details: First I APPRECIATE YOU taking an interest in my page. I've worked really hard on this CD and made a lot of cuts to my album to only give YOU the BEST of my songs and collaborations. My name is Pok3rF4ce and I live in the INLAND EMPIRE area of California. The exact city I live in is Ontario I've been influenced by rap music my whole life but I found a couple of years ago that I had some TALENT for making some dance beats and R&B cuts, so I decided to expand my horizons and work with some really GREAT artists. If you haven't already figured out I am a PRODUCER, but I'm also a song writer and rapper. I guess you could say I wear MANY hats, as most musicians do nowadays. On my CD's you'll hear a lot ROCK based HIP-HOP tracks as well as latin based with some BEAUTIFUL classical guitar. In fact you'll hear a lot of guitar based elements in my tracks just because it's probably my personal favorite instrument of sound. But besides the tracks and the instruments, you'll hear some artists whom I have had the pleasure to work with. First being Li'l Evie a beautiful LATINA with a BEAUTIFUL voice to match. She's on my Dance tracks. TakeOver 69 is the GOSPEL based SOULFUL R&B singer who also has a collaboration with Li'l Evie on one of the dance tracks. K.M.E. and Goofy appear on the track Livin Lavish and they will have another CD coming out hopefully before the year ends. Then there is MoS who I collaborated over INTERNET with, which I can say turned out to be a West Coast Banger! I had another Collaboration over the internet with a Talented Singer/Songwriter Named BREAZE who was able to give me a ROCK track on my CD. One of which has been a favorite of almost everyone who hears the song we collabed on...titled "Leavin'" in which I should also mention Li'l Evie did some background vocals for.

There are also some Hidden tracks and instrumentals that basically make the whole package FUN when you listen to it.....I guess I'll end by saying.....BUY MY CD!!!! and I SWEAR YOU'LL LOVE IT!!!!!!!
