Redemption - Faith - Hope - Peace - The spirit of One World - the new CD from Sat Panesar, a collection of easy-listening tracks, simple rock with a touch of reggae and some terrific saxophone solos. 8 MP3 Songs EASY LISTENING: Soft Rock, ROCK: Folk Rock Details: OneWORLD...it's about faith, fear, hope, prayer and redemption...it's about the concept of living like you mean it...like this is not a dress rehearsal...like time moves on and you either do something about your dreams or you don't...living with regret is so much harder than living with failure...it's about day-dreaming of do-overs, and then waking-up to the reality of another day older another day deeper in debt...it's about shunning the corporate nine-to-five for a life of artistic creativity, only to see your friends rise to the top of the company ladder (and all that goes with that) while the view from below remains the same...it's about the Hare and the Tortoise...I know the Tortoise wins, but isn't the Hare so hip...? Okay, it's about choosing to be a hip-loser, or a loser-hipster...either way, you are who you choose to be (Iron-Giant)...spend your seconds trying to morph your dream-life with your real-life to make your-life something to write about, sing about, dance about and celebrate...yeah, that's what it's about. Simple songs recorded in 5 days in my mate's guest room (mixing board and studio speakers in his dining-room, mics and dampers in the "pink" guest room next to the loo)...Christmas Spirit - Redemption Mix has been licensed and covered for an indie film in London (where' the cash?!)...oneWorld instrumental being used in a documentary about the good, the bad and the ugly during the holiday season...enjoy!
