Dear Merchant, What are the three biggest hassles you face when it comes to selling your products using ClickBank? Im willing to bet that these are high on your list 1.) You have to manually send out thank you emails to new customers. These emails help reduce chargebacks and refund demands. They also give you an opportunity to show your new customer that youre a credible and professional merchant. The downside is that you have to be there all the time to maintain this level of professionalism 2.) You have to manually add each new customer to your follow-up autoresponder. Autoresponders are a great way to make additional profits from back-end sales and affiliate commissions. If only the message sequence could be triggered automatically once you make a sale. 3.) Your download pages are wide open to abuse

from hackers and e-thieves. Your download page URL could be broadcast by email or even published online. You could be losing sales because people are getting your product for free. If only there was a way of protecting your download pages Two Powerful Products in One Great Package The two scripts in the ClickBankPRO are both worth a lot of money on their own. You only have to look at the prices being charged on other websites selling equivalent products to see just how much these scripts are worth. And those other sites charge those prices for just one of these scripts. With the ClickBankPRO Package, you can own both for one low price! And that includes MASTER RESALE RIGHTS! Remember, you'll own full 100 Master Resale Rights to the ClickBankPRO Package! Tags: im, plr
