Details: I am primarily an acoustic, finger-style player with musical roots in the folk-pop tradition. I grew up, musically, on Dylan, CSN&Y, Peter, Paul Mary, James Taylor, etc. My style still reflects those early influences, but over the past 10 years or so, I have been playing more electric guitar. Most recently, I have been exploring guitar synthesizer. Using a Roland GR-20 and a Godin Synth guitar. These CDs allow me to explore the music, melodies and arrangements I hear in my head and bring them to life. All pieces were recorded and produced in a modest home/project studio These tunes are an exciting exploration of what is musically possible with a little technology and a lot of imagination. Thanks for listening !
