Smash Up The Studio presents: MIDI Keys: Trance. This collection is perfect for producers who like to get down in the studio with some fat synths and create their own monster sounds! 70 fantastic 4 - 8 bar MIDI loops superbly constructed and programmed. These loops are bang up to date and are a perfect blend of melodic hooks and aggressive pulsing riffs. All you have to do is choose a cool sound. The flexibility of MIDI also allows the user to change the key of the riff or the tempo, or even edit the notes themselves to create a truly unique personal musical experience. Also included in this pack are 3 MIDI construction kits. These kits include every loop used in the production of our demonstration track. So if you wish, you can recreate the tracks in our demo using your own sounds, or just use certain sections and add your own flavors, the choice is yours. We have also included the MIDI files for the beats used in the demo, and you can play them back using your own drum kits or samples. Smash Up The Studios

MIDI pack range consists of only MIDI (musical instrument digital interface) files, not audio. A MIDI file contains the performance data of the musician who played or programmed the part. To use these files you must import them onto a midi/instrument track in your sequencer and select your own synthesizer or instrument plug in to play back the loop. Produced, played and programmed by Steve Burton exclusively for Smash Up The Studio. All loops are royalty free MIDI Files 100 Copyright Free 70 Files
