

Mp3 Alejandro Torres - Dreamer

[DOWNLOAD HERE](#)

Some of the most passionate, soft compositions you will ever hear. 9 MP3 Songs CLASSICAL:

Present-day NEW AGE: New Age Dreamer Songs Details: Alejandro started playing the soft at age 13. He began to frame almost immediately. He was always bucked up by his instructors to go after his "gift", but he kept his first love on the back burner to go after other interest in the arts, yet he always kept composing his life through his soft. After receiving a scholarship to attend CALARTS for acting he decided to attend the school of music there also. He met Brian Pezzone who he admired and began to study independently with him. Here are some of Alejandro's compositions from the last ten years. His style is very unique, every composition different from the last. Some of his Favorite framers of soft music are Scriabin, Chopin, Beethoven and Rachmaninoff to name of few. He also greatly admires Bach as a framer and his use of counterpoint. Music, he says, should be free from the constraints of a genre. The framer should be able to use whatever colors he so chooses and not be confined by lines. Dreamer was recorded on February 22, 2002 at Master Tracks Studio in Santa Barbara, Ca. on a 7ft Yamaha Grand. Today Alejandro is an award winning filmmaker who frames the music for his own films.
