Details: About the Composer Della Heide, mystic, nutritionist, and spiritual teacher, made her transition in April, 2006. Music was always a part of her life. When she was just a child, she longed to play the piano. But providing music lessons was not possible for her large farm family of eleven brothers and sisters. In church one day, Della heard the minister say, "If you truly desire for an outcome, pray without ceasing." Della stayed up all night and prayed to learn how to play the piano. In the morning she found that her wish had been granted! She was able to sit down at the keyboard and play beautifully! During meditation she would receive inspirational songs. Over the years she wrote hundreds of them. Songs of Della Heide, volumes 1 and 2 have been published by The Academy for Future Science affs PO Box FE, Los Gatos, CA 95031. The group has also recorded and published Celestial Lullabies, Dellas 12 compositions for babies related to the signs of the zodiac. In February, 2006, I (Carole Glenn) visited Della in her home in Saratoga, CA, with my mother, June dEstelle, and our friend Peter Navarro. June and Peter and Della had gone to Sonoma State University in the 1970s where they received their degrees in Psychology and Parapsychology. Upon returning home, I felt an urgent need to record some of our favorite songs written by Della. These have been sung for years in the Alohem Center for Transformational Studies gatherings. I contacted Gil Yslas, and within two weeks we had recorded Say To The World, I Love You! Gil provided the accompaniment, mixed, and mastered the CD. Dellas daughter, Joanne Johnson, played the CD for her mother on Dellas birthday in April. Two days later, Della made her transition. We are honored to be able to share some of Dellas musical gifts with this recording.
