An electroclash, synth pop, nu glitz tea party with a cappella inspired vocals, layered synths, drum beats and quirky guitar riffs. 12 MP3 Songs in this album (41:17) ! Related styles: ELECTRONIC: Synthpop, ELECTRONIC: Electroclash People who are interested in Prince Basement Jaxx IMA Robot should consider this download. Details: If Prince, Ima Robot and Kraftwerk sat down for tea and crumpets, Jackson Blacklock would be the host. Sounds far fetched? Well, not really. Blacklock, one of the founding members of the now disbanded Schrdingers Cat (best fucking acapella boy band in the world) ought to be the new poster boy of synth pop happiness. However, pigeon holing his music into that category alone would be a disservice. Working with his friend Rob Huntley, Cynsin the band features expert programming, incredibly catchy tunes and tongue in cheek lyrics. Any one of the songs on their album could easily be a top 40 hit. As one would expect from a former member of Schrdingers Cat, Jackon's vox is sexy, solid and is capable of handling funk just as easily as pop. Jackson is an example of the fine talent that comprised of that group. So, for you Schrdingers Cat's nostalgics out there who are waiting anxiously for the next reunion show, think of it this way: Now that the group has performed mitosis, you're getting more cool music at a faster rate. :) - adzuki bean stash
