Vocalist/songwriter/composer June Marshall delivers her dating songs about the seven types of women men MUST avoid. 10 MP3 Songs EASY LISTENING: Love Songs, HIP HOP/RAP: Rap Details: NOTES The lively author, songwriter, and singer, June Marshall has created the the sequel, "Booby Trapped: Men Beware!" to her first album, "The Dirty Seven: Ladies Beware!" It accompanies her dating guide book of the same title. Her kick-butt, no-nonsense message is about keeping self-respect and boundaries in dating and mating women, so men can develop happy, long-lasting relationships. BIO June was born in Sao Paolo, Brazil to American parents. They moved back to the United States while she was a child. After finishing college, she went to New York to study acting and singing, along with earning a Masters in English Literature. She then moved to Europe, where she lived in Belgium and visited the major cities of the continent. Next came her "Passage to India," where she traveled from its southernmost tip to the Himalayas. Her familiarity with diverse cultures of the world originates from these experiences and flavors her unique philosophy. It has also greatly contributed to her understanding of human nature. Her career, so far, has included being an actress-singer, comedienne, writer, public speaker and speech writer, English teacher, and even being webmaster and systems usability engineer at AT&T. She has appeared on television, radio, and on stage, as well as given talks and seminars on the topic of mateability, selectivity, and behavioral standards in the dating arena. She has also written numerous articles for various publications. DESCRIPTION Booby Trapped: Men Beware! wittily addresses the frustration many men feel with the kinds of women they meet on the dating scene. June sings about the seven types of "Dirty Sisters" in bluesy, honky-tonk, and rap songs that show self-respect rather than wound-licking self-pity. She performs with pulsating energy and heat. Love Songs in Reverse Her

compositions are love songs in reverse to the Dirty Seven Sisters. These females are dead-ends as mates and leave heartbreak in their wake. The words to the songs express pain and dismay, but also a kick-'em-to-the-curb attitude, that gives them grit. Husky, Silky Voice Ms. Marshall's husky, silky voice-with-attitude expresses many emotional colorations. In "The Dirty Seven Sisters" she sounds menacing as she growls the ending of the word "Beware." Undertones of smokiness and smooth vibrato lend drama to the song. Her voice is serious and humorous, soft and hard at the same time. She belts and croons, purrs and snarls, reaching the lower vocal registers with resonant ease. Happy Ending One reviewer writes, "No one escapes her scathing glance." But she includes one true love song in the set to a man who expresses love through action, not words. The sweet vulnerability of, "You Know How to Love," shows that she is never a bitter cynic, just smart enough to recognize the Real Thing. If it isn't, "You better ditch her, and make it snappy." About June's book: Booby Trapped: Men Beware! Most currently available books on relationships concentrate on how the man can catch, please, or understand a woman. They focus on mistakes men may make or on how to increase sexual pleasure for both parties. Some are about building self-esteem so a man will be a better partner. A few books are on judging compatibility with potential mates or astrological matches. With the Dirty Seven, there is no compatibility and no potential. Men don't even have to ask, "Will we be a good fit?" The answer is "no." They can easily recognize, with June's guidance, these Dirty Seven types, enabling them to concentrate on someone with a future. Bold and blunt humor make this ultimately very serious guide a fast read. Her all-too-true celebrity stories will make you laugh. Even if you have not experienced one of these girls, you know at least one person who has. The Dirty Seven are very funny, unless your life is tied up with one of them.
